Videoconferencing available from some sites. Please check with your DME for details.

Olle (Th.J.) ten Cate studied at the University of Amsterdam and subsequently worked as an educational advisor at the same medical school. In 1986, he completed a PhD dissertation on peer teaching in medical education. Between 1980 and 1999 he was closely involved in all of UofA's major preclinical and clinical curriculum reforms, educational research, program evaluation and educational development. In 1999 he was appointed full professor of Medical Education at Utrecht University. From 1999 until 2005 he was program director of undergraduate medical education at University Medical Centre Utrecht. Since 2005 he has led the Centre for Research and Development of Education at UMCU. His research interests include vertical integration in the undergraduate medical education, peer teaching and competency-based postgraduate medical education. From 2006 until 2012 he served as president of the Netherlands Association for Medical Education. In 2012 was appointed as adjunct professor of medicine at the University of California, San Francisco. In 2012 he joined the Executive Committee of the Association for Medical Education in Europe.
